

**Construction:**

The fixture includes a threaded base (1) to which a tray (9) with an igniter module (2) and a lampholder (3) is attached. A bulb (4) is fitted into the lampholder. A RASTER (ODB-3) reflector (5) can be used optionally. A threaded shade (6) is slid over the fixture and screwed into the female threaded base. The connection is made tight by using a gasket (7).

**Mounting instructions:**

- \*) -Attach the igniter module (2) and the lampholder (3) to the base.
- Lead the electrical cables out of the arm and place them neatly inside the fixture,
- Connect them to the igniter (2)..
- Attach the arm to the base (1).
- Put the bulb (5) in position.
- Attach a RASTER (ODB-3) reflector(5)
- Position the gasket (7) in place and screw the shade (6) all the way in.

If any lantern elements are supplied factory-mounted, the mounting stages marked with \*) should be omitted (as this has already been done by the manufacturer)

**TECHNICAL DATA:**

cd/klm  
C0 - C180 ..... C90 - C270  
Photometry (polar plot)

**Power: ~230/50Hz**

**Protective class: I**

**IP65 -electrical part**

**IP65 -optical part**
